- — GROUND HANDLING  
EQUIPMENTS — ●
- — RESTAURANT & KIOSKS — ●
- — SECURITY CABIN — ●
- — GRC & FRP COMPONENTS — ●

# MODULAR TOILET

## Mobile sanitation at its best!

A modular toilet can be easily moved from one place to another. These toilets can be installed on sites such as any building or concert hall. We offer various types of toilets that can be easily accommodated within vehicles. The major characteristic of our modular toilets is that they don't need any pre-existing infrastructure on-site for proper functioning; they are self-contained. If you work in urban slums or in developing countries where sanitation infrastructure is inadequate, our premium modular toilets are at your service.

## FRP TOILET

## MS-GI TOILET

## PUF PANEL TOILET

## MOBILE TOILET VANS

## FEATURES OF MODULAR TOILET

Monolithic design | Easy to install  
Conveniently movable | Compact design  
Easily assembled | Effective waste management

# MODULAR OFFICE

## A one-stop solution for smart office!

We at RNC Infraa believe that the conventional workplace is not relevant anymore. Stepping in to offer contemporary solutions in terms of the times and technologies, we have come up with the concept of modular office. The prefabricated offices that we offer consist of a string of functional units called modules that are equipped with extremely smart features, and that makes us unique. Our modern, durable and secured modular offices are easy to install at any place.

## PROJECT OFFICE

## FEATURES OF MODULAR OFFICE

Modern finish | Easy to install  
Conveniently movable | Less material waste  
Easily assembled | Improved ventilation

# WORKMEN COLONY

## Safety and dignity for the work-force!

With increasing modernization in the infrastructure sector, workmen colonies have become an indispensable part of any construction project. Our workmen housing colony designs are cost-effective, practical and of high quality. We are an experienced player in the industry and we have served so many people with our sturdy workmen colonies. Providing a safe and convenient living space for your workers is no more a hectic and costly task. We offer two types of workmen colonies: Aerocon panel housing and PUF panel housing.

# PREFAB HOUSING

Create your dream modular home!

At RNC, we are involved in making all types of modular houses, PUF panel weekend homes and container homes. These are special types of prefabricated buildings which we manufacture off-site in advance. The prefab houses are constructed in standard sections which can be easily shipped and assembled. We offer the latest prefab designs including post modernism and futuristic architecture design. Create your dream weekend home with prefab infrastructure solutions of RNC Infraa.

# SECURITY CABIN

Total safety for your security personnel!

Security cabins have become much better with modern day prefab infrastructure. Every project requires a fully functional security cabin for their security guards. No more brick & mortar structure; security cabins are now becoming modular & fancy with MS-GI, ACP, and PUF PANELS. Nowadays, portable security cabins are the ideal choice. They are easy to set up and remove which makes it convenient for short term projects. RNC Infraa offers modular security cabins with high-end quality, at affordable costs.
